

## Parrot Petite By Forestier

The Parrot Pendant series by Forestier is one of their latest additions, designed by Jette Scheib. In this collection, Jette Scheib emphasizes the inspiration drawn from the dense colouring of the Parrot

Each shade is woven from multiple strands of coloured raffia which produces a beautiful textural quality in each shade. All shade sizes are capped with a timber detail that adds to the intrigue of this design.

Parrot Petite and the larger Parrot Grande pendants are perfect for lighting small and large scale installations ranging from a dining table to a cluster of varying sizes in a foyer to create a bold statement!
