## Bakelite multi bulb Plumbing Pipe Chandelier

**AUD \$490.00**

**SKU: 72454**

Bakelite multi bulb Plumbing Pipe Chandelier. This light fitting can be used to light up a table or bar or just as a multi bulb ceiling light feature. Standard Bakelite lamp holders

are attached to this fitting via 10mm threaded custom pipe fitting components. Very industrial in design we can see this being used over bars and serving tables where a lot of light is needed. Secures to the ceiling via galvanised steel pipe and flange plate which is also the wiring point. This light fitting is a lower cost version combining appropriate materials to create a cost effective solution. With the bottle shaped LED globes we think this may be of use to assist to locate a bar facility in a large venue. Can be ordered in Galvanised, or Flat Black finish. Main pics are showing flat black painted surface and Bakelite lamp holders. Choose between E27 for 240V requirements, and E26 for 120V requirements. Note that for E26 120V applications, UL listed components are used but the light fitting itself is not UL listed. This is a unique design made by hand to order in our workshop. Precision components combined with exacting assembly make this a robust light fitting suited to commercial applications. Does not come supplied with globes but any E27 bulb can be used including LED's. Pictured with LED Bottle shaped globes and a selection of vintage filament globes. **Features:** Vintage industrial design. Steel and cast plumbing pipe construction. Standard Bakelite lamp holders. Mounting flange compatible with 4" J- boxes. Overall height specifiable to order. Available in 5, 7, or 9 lamp configuration. Range of surface finishes. **Finish options:** Plumbing pipe components available in standard Galvanised iron, Rusted iron, Painted finish, and Raw steel, supplied as linseed oil rubbed.
