Coastal Hamptons Style Lighting

Fluid form and earthy tones give this bamboo light shade understated allure. Hand woven from wide bamboo strips, it has more texture than our [rattan shades](#) with all the personality of a hand made piece.

Free form weaving makes this Hamptons style lighting sturdy enough not to need a metal frame. Big on WOW factor, its width and shorter stem make it a fantastic fit for dining rooms, kitchens and task lighting.

All our shades are unique, bearing the character of their beautifully handwoven origin and natural materials. You may find slight variations in colour, size and texture in each pendant.
